H P Turner Sept 13th 1850

Esteemed Friend yours of 22d of
august is before me & Contents noted
we are sorry for the loss of the fluid Ext
but they were reduced to the lowest
terms that we reduce fluid ext, we
were doubtfull they would hardly keep
in the fluid State but we felt as though
we had made them as ordered, a little
Spirits would have preserved them
but this we were fearfull you would not
wish to have added as you said nothing
about it and being aware that many
Physicians are Prejudiced against Spirits
being added to medicine and not knowing
but that you were one of those we were
fearful to risk our Judgment least it
would not suit you

You with some further preperations
both of what we first sent and others
you have ordered We have but to say we
would be pleased to accomodate you in
any thing which would be consistent with
our Interest, but as all the Ext you have
ordered in your last bill are made from
materials which we have to purchase for
Cash we think it would be no more
than reasonable to furnish the Capital to
commence on say if you send us by
mail 40 Dollars we will proceed on and
make the amount and Ship to you C.O.
all the surplus hopeing to hear from
you soon we remain your friend

B. A. Fahnestock 46 ~~Nov~~ Dec 5th 1850

Respected Friend

Your favour of the 26th ultimo come duly to hand enclosing a Check for $16.39 for very small order for articles you want as likewise your Acct Current up to Nov 25th from which the expense may be drawn that you expect us to fill your small orders subject to a discount of twenty percent from our catalogue prices without you engageing on your part to sell for us to the amount of two hundred Dollars per annum agreeable to our proposal in our last communication

In that communication it was explicitly mentioned that we could not make the discount on small bills such as we then sent you. The expense incurred to us for freight Postage &c &c was equil to what it would be for four times the amount We therefore think it would be 1 to 1 not our interest to discontinue the agency unless you can feel it to your interest to allow us our Catalogue price on all your orders payable when the goods are sold or obligate yourself to sell at least $200 worth per annum and you to have the discount from our Catalogue prices of 20 per cent or 25 per cent Discount and pay Cash on all goods on delivery or in case you think it would be more to your interest you will close the Acct and send what are on hand to D D Daughty for

your Friend

Respected friend I recd a letter
from you a few days since meaning the
Shipment of some Spikenard roots to the care of
Conklin & Wood Cincinnati Ohio
In looking over some old documents
I find that I ordered some Spikenard roots in
1848 to be shipped to me that year they did not
come and next year 1849 I addressed a Note to
Dr [illegible] Fisher of Lebanon informing him
that the roots ordered if they were not forthcoming
soon the Contract would be considered void
would have been great need of the roots and
that time at the prices offered but not having
Rec'd them we had to we had to deal Elsewhere
and furnished our selves with a Supply
there is on other thing I wish to mention in 48
according to our Catalogue price we were selling
Spikenard root at 30 cts per lb. Now we sell at 18¾
after preparing it for market. We can buy Spik
root in Cincinnati at 6 cts per lb and have a supply
on hand at that price and as much as we want
Now friend Seeing you have Shipped your roots

as per letter I will receive them at the whole Cincinnati price Now, This is all I can do
I dont know whether the roots have arriven and will await your answer as to what you will do Before I can proceed any further

The Saffron referred to in your favor from Letton we can not supply at any price as we are entirely out of the article As regards the withdrawal of other agents in Pittsburgh We would just say that we have but one other agent there and further you may advertise as quick as you have occasion to as we dont mean to furnish any other house in Pittsburgh on commission at present we are desirous of making the agency as lucrative with you as possible so you need not fear that we will hurt your sales any more by agency in Pittsburgh

But there is one thing by the way which we wish you to understand in relation to this matter of agency and that is there are other house here who put up herbs & Extracts whome we exercise no control in these matters they we understand have one or more houses in your City that deal with them

Respected Friend we
we have a Claim on Robert Irons
of your place on security which is insti-
tuted on the following facts about
3 years since Jesse Harper came
here and put in our care a small
Girles who were to remain during
minority. These Girles we Boarded
Fed Clothed took care of in sickness
and sent to School for about 2
years when the said Jesse came
back and demanded the Girles
alleging that She was moved to
Mr Irons and that would pay us
fifty Dollars & She gave her note for
that Sum he was several times
wrote to and no answer Rd
We wish to know of you will
undertake to Collect the Claim &
pay your self out of it we have
no disposition to work loosen any
more we have thought that to
discontinue the Suit that has been
Brot before Squire Evans on the
note and commencing one in
the proper Ct we ought to
recover a Just compensation
for the Services rendered you
can act in the case as you in your
wisdom may think best Save
you Keep us Clear of Expence
and Should you conclude that
as a hopeless case do not Sue
we wish the suit before Evans discon-
tinued and will pay the cost
or you can forward what it is
perhaps you could effect a compro-
mise with Irons

Orsamus Allen Esq Respected Friend
